### 345 bet

The Hotline slot is a three-by-five slot that has 30 win lines and symbols that will remind you of the likes of Miami Vice and Lethal Weapon. The game has an RTP of 96.13%, which can rise up to 97.04% when all three Hotlines are activated, and is packed full of features that include expanding wilds, re-spins, and free spins, plus a multi-level bonus bet feature called the Hotline Bonus Bet.

Eager fans will be pleased to know that

the Hotline slot game is, of course, available to play on a desktop device but also compatible with mobile devices, courtesy of the best mobile casinos.

What does the

Hotline Bonus Bet do?

The Hotline Bonus Bet is a core part of the Hotline slot game

that you can activate as and when you choose. There are three to select, which turn each row on the reels into a Hotline. The more you select, the better your chance of landing expanding wilds and re-spins.

If you land a wild on any active Hotline, it will

then expand to cover that entire reel and lock in place before re-spinning. If another reel shows a wild, it too will expand and lock in place before re-spinning. This then continues until no more wild symbols appear.

How do I activate the Hotline Bonus

Bet?

Promisingly, you can activate the Hotline Bonus Bet whenever you want. There are three symbols on the left of the reels, each one used to activate and deactivate the Hotline on that row with a simple click.

Each Hotline will cost 15 coins per level, and

with the minimum coin value being just 0.01, that means your bet will be anywhere from 0.15p to 30. If you choose to activate two lines, your bet will double, meaning it will cost from 0.30 to 60.

Should you wish to activate all three Hotlines, this could cost you anywhere from 0.45 per spin to 90.

What about the free spins?

Free spins are awarded when three scatter symbols appear on your reels. This will award you with seven free spins. Free spins can not retrigger during current free spins, and if free spins and re-spins are won within the same spin, free spins are activated first.

If you have

your Hotlines activated during free spins, and a wild locks in place, it will remain there until the free spins end. If you are lucky enough to have all your reels turn to wilds during this time, then the win will return 2,800x your stake which is the maximum payout.

If the reels are filled with wilds outside of the free spin feature, a complete set of wilds will return you 400x your stake. Be sure to check out the latest casino bonuses to make the most of your time on the Hotline slot.
