Emmanuel Macron Visita Nova Caledonia Amplificando las Tensiones Políticas

El presidente francés, Emmanuel Macron, visitó recientemente Nova Caledonia, un territorio en el Pacífico Sur, aumentando las tensiones políticas en medio de protestas y demandas de independencia.

Contexto y Antecedentes

Nova Caledonia, un territorio de ultramar de Francia, tiene una larga historia de desigualdad y esfuerzos por lograr la independencia. La tasa de pobreza entre los indígenas kanaks, la comunidad más grande, es del 32,5%, en comparación con el 9% entre los no kanaks, según el censo de 2024. Además, solo el 8% de los kanaks tienen un título universitario, mientras que el 54% de las personas de ascendencia europea están university educated.

Referendos y Acuerdos

Entre 2024 y 2024, se llevaron a cabo tres referendos en Nova Caledonia para decidir si el territorio debe independizarse de Francia. En cada ocasión, la mayoría de los votantes optó por mantener la relación con Francia. Sin embargo, el movimiento independentista rechazó los resultados del tercer referéndum, argumentando que se llevó a cabo durante la pandemia de COVID-19, lo que dificultó las actividades de campaña.

El Acuerdo de Nouméa de 1998, que estableció el marco para los referendos, prohibió el registro

de nuevos votantes en un intento por maximizar el poder de voto de los kanaks. Sin embargo, a medida que los referendos han concluido, el gobierno francés ha comenzado a otorgar el derecho a voto a los residentes de larga data nacidos en el extranjero.

Protestas y Demandas

En mayo de 2024, las protestas estallaron en Nova Caledonia en respuesta a una propuesta de reforma electoral. Las manifestaciones han resultado en saqueos, incendios y enfrentamientos, dejando seis personas muertas, cientos de heridos y extensos daños. Los manifestantes exigen la retirada de la propuesta y la independencia de Francia.

Visita de Emmanuel Macron

Emmanuel Macron visitó Nova Caledonia el 18 de mayo, buscando calmar las tensiones y abordar las demandas de los manifestantes. Sin embargo, su visita ha sido criticada por algunos por no abordar las causas profundas de las desigualdades y las demandas de independencia.

Top Jackpot Slots at UK Casinos

Before getting to the best jackpot slot sites picked by our industry experts, it is worth starting with what jackpot slots you can expect to find at those online casinos. Our review team selects slots based on their overall quality covering gameplay, graphics, audio, features, payouts, and bonuses. Below are the jackpot slot games that provide the best combination of these factors:

Mega Moolah – RTP: 88.12%

Arguably the king of all jackpot slots, is the most famous online slot when factoring prizes. That's because it is also a full progressive slot with a base jackpot of £1 million. This classic also has a jackpot of 75,000 coins in the base game and 225,000 in Free Spins. Since launching in 2006, Mega Moolah has remained one of the premier jackpot slots UK customers can play.

The safari theme is bouncy and fun, and several updates over the years have kept it fresh. You play across a 5x3 configuration with 25 paylines, while the RTP is 88.12%. Mega Moolah is an ideal slot game if you want to try a progressive with a high-standard jackpot.

Mega Fortune – RTP: 96.6%

Often described as the main rival to Mega Moolah, Net Entertainment's is a luxury-themed jackpot slot known for making regular millionaires. Its progressive jackpot pays out on average every 65 days. And, with an average jackpot slot payout of £3.1 million, there's a lot to love.

A balanced math model makes Mega Fortune a surprisingly consistent paying game. It has a medium variance and an above-average RTP of 96.6%. This was initially a 2008 release, so the gameplay is relatively basic on a standard grid of 5 reels and 25 paylines. Still, the free spins bonus is a fun attraction that keeps the gameplay moving along.

Mega Fortune Dreams – RTP: 96.4%

If you like Mega Fortune but want a more modern experience, is one of the best jackpot slots to choose. It offers a more complete game packed with 10x multipliers, free spins, a bonus round, and re-spins. Spin the reels across 5 reels, 3 rows, and 20 paylines, and you can win a base jackpot of up to 21,000x your stake.

This game also taps into the Mega Fortune progressive jackpot network. That means significant prizes are routinely available. A 96.4% RTP (7.5% for the jackpots) and medium volatility provide a hit rate of 34.2%.

Divine Fortune – RTP: 96.7%

Divine Fortune is another jackpot slot from NetEnt, offering a generous standard jackpot alongside a local progressive jackpot. It is ideal if you like the idea of a progressive slot but want a

smaller pool contributing to the jackpot. A local progressive essentially means the jackpot is set on a casino-by-casino basis.

In terms of gameplay, whisks you back in time into the age of ancient Greece and mythical creatures like the Minotaur and Medusa. As you expect from NetEnt, the Divine Fortune jackpot slot looks impressive and comes loaded with features. When spinning the 5 reels across 20 paylines, you get respins, multiplying wilds, free spins, and a bonus game where you can potentially win one of two fixed jackpots or the progressive Mega Jackpot.

Hall of Gods – RTP: 95.7%

For a good combination of regular jackpot and progressive, check out the classic NetEnt slot. Released in 2011, this is one of the top jackpot slots with remarkable graphics and a slick Norse mythology theme. You get the normal NetEnt combination of cool visuals, standout features (trebling multipliers on free spins, expanding wilds, and a bonus picker), and a solid 95.7% RTP. Hall of Gods uses a normal 5-reel and 20-pay line set-up to give players the chance of winning a fixed jackpot of up to 4,314x your stake per spin. There is also a progressive jackpot starting at £500,000. Hall of Gods does not pay out as regularly as the likes of Mega Moolah or Mega Fortune, but the average jackpot of £5.3 million is higher.

Arabian Nights – RTP: 95.22%

Another noteworthy progressive jackpot slot in the NetEnt stable is , which takes its inspiration from the classic stories of the same name. A more basic slot design makes this a good entry for beginners playing their first jackpot slot game. The fact that you can start from 10p per spin also means Arabian Nights works for casual online jackpot slot players.

The 5 reels allow you to bet on 10 paylines, a simple configuration that makes this an accessible game. Don't worry, high rollers; there is a progressive jackpot that triggers a win every 147 days on average, with an average payout of around £1 million.

Major Millions – RTP: 89.37%

If you like your online slots with back-to-basics gameplay but want to try a jackpot slot game, is waiting. All the action of this slot from the team at Quickfire is fast-paced, and any win you build will come in the base game. Yes, forget about bonus rounds, free spins, or respins; this is a pure slot game.

Across 5 reels and 3 rows, you can wager along 15 paylines and win various prizes across them. You will need the 15th pay line to hit a winning wild combo to claim the progressive jackpot on the Major Millions jackpot slot. As for the visuals, it follows the old-fashioned style of the game, using a cheeky military theme that looks good even if Major Millions is ageing.

Progressive Jackpots

We have discussed progressive and regular jackpot slots throughout this page, often interchangeably. However, the two are slightly different. This may be confusing, so now is a suitable time to explain the differences and similarities between the two:

Jackpot Slots : These online slots provide a hefty sum jackpot prize you can win with just a single spin of the reels. Standard jackpot slots are popular because they provide lucrative rewards while offering similar payout rates to a classic slot game.

Progressive Jackpots : These online slots provide a hefty sum jackpot prize you can win with just a single spin of the reels. Standard jackpot slots are popular because they provide lucrative rewards while offering similar payout rates to a classic slot game. **Progressive Jackpot:** Conversely, a will have an even bigger prize that grows over the whole network. This jackpot expands with every bet a player makes on the slot at any online casino. Over time, this jackpot can become massive, even amounting to millions of pounds.

A golden rule to remember is that a progressive is a jackpot slot, but not all jackpot slots are progressive. So, the obvious question is, which should you choose?

There are good reasons to play both standard jackpot slots and progressive jackpot slot games. It depends on what type of player you are. If you'd like to play over longer sessions and retain your bankroll for as long as possible, we'd recommend a standard jackpot. Payout rates are better, but obviously, you will have a smaller potential jackpot limit.

On the contrary, a progressive jackpot slot is the best option if you are a high roller or the kind of slot player who likes to take risks in pursuit of the "big hit" win. These games reduce your chances of winning compared to classic games, but when you do win, you can often land a big prize. If you win the main progressive jackpot, you could see millions in prize money.

However, it is worth noting many progressive jackpot slots, such as the ones we list on this page, also include a fixed jackpot alongside the progressive.

Mobile Jackpot Slots UK

Your mobile device is your ticket to carrying an online casino in your pocket. You can play wherever and whenever you want, which is why mobile gambling is becoming the most usual form of gambling in the UK.

Game providers understand this and build their slots on HTML5 technology. Without getting too technical, this means that games can run on both a desktop site and a mobile browser. Even older progressive jackpot slot games like Mega Moolah (launched in 2006) have been updated to accommodate gamblers on the go.

Yet, did you know you can also spin the reels of jackpot slots on dedicated ? These applications offer increased usability, greater connectivity, and special alerts, meaning you can keep up to date on all the latest releases. When we review jackpot slot sites, we look for casino operators that

provide a dedicated mobile app.

Biggest Jackpot Slot Payouts

One of the best things about jackpot slots is that they do, in fact, payout. These massive jackpot prizes, such as the multi-millions of pounds you can win on progressive jackpots, are no false promises. While astronomical wins are rare, you may be surprised how often someone wins mind-blowing sums of money. Online casino history is filled with mega winners, and below are some of the biggest over the last five years.

Yggdrasil – Joker Jackpot. Picture the scene, it is the Easter holidays in 2024, and one player sinks €1.25 (around £1) into Yggdrasil's Joker Jackpot, probably expecting never to see that money again. Instead, the reels went their way and the jackpot hit for a cool £2.6 million. The best £1 they ever spent!
