Blackjack

Introduction

I saw Buster Blackjack in Lake Tahoe on July 9, 2024, but I think it has been around for years. The bet wins if the dealer busts. The more cards it takes, the more the player wins. The bet is marketed by AGS.

Rules

The rules to the side bet are quite simple. If the dealer busts, then the player wins according to how many cards were needed to bust. If the dealer does not bust, then the side bet loses. I know of two pay tables, which are shown below. All wins are on a "to one" basis.

Version 1 Pay Table Cards Pays 8 or more 250 7 50 6 15 5 4 3 or 4 2

Version 2

assumes that if the player gets a blackjack, then the dealer will still play out his hand.

Version 2 Pay Table Cards Pays 8+ cards & player BJ 2000 7 cards & player BJ 800 8+ cards & no player BJ 250 7 cards & no player BJ 50 6 cards 18 5 cards 4 3 or 4 cards 2

Pay Table 1 Analysis

The following table shows the probability and return of all possible outcomes, assuming six decks and the dealer hits a soft 17. The lower right cell shows a house edge of 6.21%.

Mega Blackjack

Mega Blackjack is a blackjack variant that has special pay

tables for the Buster Blackjack bet, as shown below. Note that for pay table 3 the

dealer must bust with four or more cards for the side bet to win.

Evolution Gaming

The live dealer studio by Evolution Gaming

offers a game called Infinite Blackjack with the following pay table. The other rules

are eight decks, dealer stands on soft 17, and the dealer always plays out his hand,

even if the player gets blackjack. The lower right cell shows a house edge of

6.18%.

General Dealer Analysis

As long as I took the

trouble to analyze this bet, I created a table showing the probability of various

dealer events for a six-deck and eight-deck games and whether the dealer hits or stands

on a soft 17.
