This app is fun. It has a great selection of slots to choose from. But this is how its going to go for you. Ive played with 4 different accounts and it went the same way every time. When you first start you are going to win a great deal. Its really fun and you hit bonuses often and the payout is great. After a while though you start to win less and it will eventually take all your coins. The free coins with this app are a joke. The worst thing you can do is buy coins. When you do you will win often again. And it will last a while. Then it will take everything quickly. Buy more coins and win again for a while. Then it happens. You buy coins and win for shorter periods of time. The more you buy the quicker it will take your coins. You will always get a period of winning each time you buy but that time grows shorter each time you buy. They will tell you it is set up to play like a real casino but who really wants real odds on a game they cant cash out. Also if you do play the bet max button is conveniently located next to the spin button. It is really easy to hit it and not know until your coins disappear in a couple spins.
