In 2018, the US Supreme Court overturned a federal law that had banned sports betting in most states. Since then, many states have legalized and started regulating sports betting, including online sports betting. However, online casino games, such as those offered by Unibet, are not covered by this development and remain illegal in most states.

Unibet and other online gambling operators must comply with the laws of each state they operate in, and they may only offer their services in states where online gambling is legal and they hold a local license. As of now, Unibet is legal and available in a few states, such as New Jersey, Pennsylvania, and Indiana.

It's important to note that the legality of online gambling can change rapidly due to shifting political and legal landscapes. Therefore, it's always a good idea to check the most recent laws and regulations in your state before engaging in online gambling.

In summary, while Unibet is legal in some states in the USA, it is not legal in all states. Always ensure that you comply with your local laws and regulations when participating in online gambling.
