What is PayPal?

PayPal is a digital wallet that can be linked to your debit cards and your bank account. It's easy to set up and use for online shopping, casino deposits and withdrawals.

PayPal is widely adopted and available both internationally and in the UK. According to business data platform Statista, there were 277 million active PayPal accounts in the first quarter of 2024. Statistics also show that PayPal is becoming more popular all the time.

Since its

introduction in 1998 (then operating as Confiny), PayPal has added many features to make it more competitive. These include:

PayPal One Touch - stay logged in and deposit with just a single click

PayPal App - send and receive money using your phone

PayPal

Access card - a MasterCard debit card that uses your PayPal funds for purchases and ATM withdrawals

PayPal.me - share a link to receive payments directly without the hassle of bank numbers

Why use PayPal deposit with casinos?

Chances are you've already used

PayPal before while paying for things online. There are now plenty of reputable casinos with PayPal as a deposit option. Here's why you should deposit with PayPal in online casinos:

Instant and free deposits

Fast withdrawals

High maximum limits for deposits and withdrawals

Protection for your money and data

24/7 support

Fully regulated

Mobile

friendly

PayPal Quick Registration, a faster way to play

Pay'n play casinos have been a

Nordic staple for years. Now UK players get to enjoy this same great service with the help of PayPal Quick Registration.

Quick Registration combines the part where you need

to create your casino account and the actual depositing into one quick procedure. This way you can start playing faster and need to worry less about putting in all your personal details.

Using Quick Registration is very easy and anyone can do it.

How to

use PayPal Quick Registration:

Click Quick Registration button on the sign up page

Choose the amount you want to deposit Add promo code, set deposit limits and choose if you want the casino to remember your PayPal details Click Deposit Using PayPal button

Insert your email or phone number you have set in your PayPal account Put in your PayPal password Confirm the transaction

Now you can start playing on the casino with the money you just deposited and with the account you just created.

How this works is that you

are basically giving PayPal the permission to hand out your name, address and phone number to the casino, who will then create a player account with those information. The casino may still need to ask you for documents when you make withdrawals just like with a regular player account.

PayPal Quick Registration is still rare and can only be found

on a handful of casinos. You can use our casino selection tool to find UK pay'n play casinos by choosing the Quick Registration filter.

How to find Paypal casinos

1. Find a

Paypal casino from our casino list We have a huge list of Paypal casinos here on Bojoko. You can add filters to personalise the list so you can find that perfect casino just for you. 2. Read what our experts and other users have said After choosing a

Paypal casino, you can read what our experts and other users have said about that casino. Their first-hand accounts will give you a clear idea of what it's like to play

there. 3. Go to the casino Every review page has a green 'PLAY HERE' button that will take you directly to that casino. If we have a special bonus, that button is the way to

get it. When you get to the casino, just register an account. 4. Deposit using Paypal Go to deposit, select Paypal as your method and choose the sum you want to deposit.

Verify the transfer using your Paypal logins and the money is instantly put into your casino account.

What are PayPal slots?

When

people talk about PayPal slots, they usually mean slot games you can play after you deposit using Paypal.

Just to be clear, there are no separate online slots for PayPal

users. PayPal works like any other casino deposit method, meaning you can access every

game the casino has to offer.

PayPal casinos have a handsome selection of different types of games. Besides slots, you can play scratchcards, table games and video poker. Many sites also feature bingo and sports betting.

UK slot sites that take PayPal

There

are many UK slot sites that accept PayPal deposits and withdrawals. Many of these have over 1000 slots on their casino lobby.

We've listed over 100 UK slot sites that take

Paypal on the top of this page and we're constantly adding more. Use the Most PayPal slots quick filter to see PayPal slots sites with the largest selection of games.

Popular online slots in PayPal casinos

The most popular slots in PayPal casinos

can be grouped into three categories:

New slots launched recently

Jackpot slots with

massive wins

Classic slots that remain popular year after year

Many players like to try

new slots. Casinos and game suppliers make sure to advertise new launches with special promotions to gain more exposure.

Every once in a while some new slot gains enough

popularity to become an instant hit. Sometimes the reason for success can be an innovative design, new features or a unique theme. Especially slots based on popular TV shows or movies tend to draw a crowd.

Slots with progressive jackpots are also featured

on most PayPal casinos. The chance to win millions on a single spin has been known to attract players, especially when the main prize has been growing for months.

Some slots

have already secured a large amount of loyal players who always prefer to play their all time favourite games. Here are some of the slots that can be found on practically every PayPal casino:

Starburst slot

Hugo

Mega Fortune

Second Strike

Alternative payment

methods

Online casinos offer a number of alternatives for PayPal. For example, there are other e-wallets, card payments, and mobile payment options. Check out some of the popular methods you can find at most casino sites.

Mastercard

Mastercard, a leading

global debit card, offers several advantages for online casino payments. Notably, nearly all online casinos readily accept Mastercard for both deposits and withdrawals.

However, Mastercard has a much slower processing speed when compared with online wallets. By using e-wallets, your withdrawals usually arrive to you within hours. Mastercard withdrawals might take a few business days instead.

On a positive

note, Mastercard users enjoy the freedom to claim bonuses without the restrictions faced by some e-wallets, contributing to a more flexible and rewarding user

experience.

Read more about this payment option and see all online casinos that accept Mastercard.

Payforit

PayForIt, a popular pay-by-phone option, makes depositing a breeze. Just use your phone number for quick deposits with a few taps. Your deposited amount gets added to your mobile bill, which you pay later.

To deposit with PayForIt,

pick a casino that accepts it, select PayForIt as your method, and enter your deposit amount. Confirm your payment through a text message, and once authenticated, see your account topped up in seconds.

PayForIt keeps your personal details completely secure.

It's a straightforward and safe way to handle payments.

You can see our PayForIt casino sites for more information.

Paysafecard

Paysafecard is a widely-used prepaid card, especially in Europe and the UK, where it's available in various stores. It's simple, secure, and a top pick for those prioritising safety.

You can use Paysafecard with or

without registering. After purchasing it through the app or website, you can use the card to pay at online casinos. However, be aware of the limits; unregistered users have a £40 limit while registering raises it to £1,000.

For UK players, there's a range of

Paysafecard casinos to choose from. Note that some sites don't allow claiming bonuses with prepaid cards, so check the bonus terms in advance.

FAQ

How to use PayPal for casino deposits and withdrawals? PayPal

deposits and withdrawals are one of the easiest, safest and fastest ways to transfer money to an online casino. All you need for a PayPal deposit is a personal PayPal account linked to your debit card or a bank account. Make sure that the casino also accepts PayPal withdrawals. As of April 14th 2024, UK casinos no longer support online wallets linked to a credit card. However, debit cards can still be used. We have created a step-by-step guide to show how easy it is to use PayPal in a casino: Set up a PayPal account

How to use PayPal Quick Registration? PayPal Quick Registration lets you

create a casino account and deposit using only your PayPal account. This is a safe, fast and easy way to start playing. To use Quick Registration, you need to have a PayPal account with your correct personal information. Click on Quick Registration Choose how much you want to deposit Log in with your PayPal account Confirm the transaction It is just that simple. You can find the UK casinos that support Quick Registration on our casino list.

How to set up a PayPal account? Go to paypal Click on

"Get started" Fill in the account details (country/region, first name, last name, email address, password) Click on "Next" Fill in the address details, DoB and nationality

Confirm you've read the user agreement and other documents Click on "Agree and Create Account" You'll get a verification email to the address you gave. Click on the link to

confirm your email Next, you'll need to link your bank card or bank account to PayPal and you're all set to make a deposit.

How to link cards and bank accounts to PayPal?

Log into your Paypal account Select "Wallet" Click on "Link a debit card" or "Link a bank account" Enter the information requested Before you can send or receive payments, you need to verify your card or bank account in the Wallet section of your account.

Depending on the banking method you're verifying, you may need your debit card statement, bank statement or bank logins. After you've completed this step, you can make deposit using PayPal.

How to make a deposit in a PayPal casino? Find a casino

account? Before you deposit, make sure the casino also supports PayPal withdrawals Make a withdrawal request Wait for the casino to process your withdrawal (processing and pending times vary from hours to days) The money appears on your PayPal account instantly after the casino accepts your request Check out our list of casinos with the shortest withdrawal times.

Is it safe to use PayPal in an online casino? Yes. PayPal is

tightly regulated and only works with trusted casinos licensed by the UK Gambling Commission. When you use PayPal for casino banking, you only share information related to your PayPal account. Your bank account and card info is never shared with the casino. PayPal also monitors transactions 24/7 and uses an encryption technology to keep your info safe.

Are there fees for using PayPal? PayPal itself doesn't charge any

fees from its users. However, PayPal makes money by charging the merchants, and their fees have recently increased. Subsequently, online casinos may apply additional fees for PayPal withdrawals. Check the terms and conditions and the casino banking page before you make a deposit.

Which casinos accept PayPal? Currently, there are over 100

UK licensed online casinos that support PayPal listed on Bojoko. Return to the top of the page and filter the selection according to your preferences.

What is shown on the

bank statement for PayPal transactions? PayPal payments in your bank statement will be shown as "PayPal Payment". By logging into your PayPal account you can see the details for each transaction, including merchant names. Instead of the casino brand, your statement may show the name of the casino company operating the site.

Do PayPal casinos

accept other banking methods? Yes. Most PayPal casinos feature a good selection of debit and prepaid cards, other e-wallets, wire transfers and pay by phone banking methods.

Can I deposit with PayPal and use another banking method for withdrawals? Most

casinos only allow you to withdraw using the same banking method that you used for the deposit. This is to prevent money laundering and bonus abuse. If you have used multiple deposit methods and win without your real money balance hitting zero, you may need to withdraw your winnings using the original deposit methods, in batches proportional to the deposit sums.

Why not use PayPal for casino deposits? PayPal is a convenient casino

deposit option, but there are some drawbacks you should be aware of. Consider these factors before you pay in casino with PayPal: You'll need to set up a PayPal account

There may be withdrawal fees If you want to deposit without registering for a banking method, PayPal is not the best way to go. The actual deposit appears on your casino account without delay. However, you need to link your card or bank account to your PayPal account before you can make that deposit. Unlike the deposit itself, this may take a while.

What are the best alternatives to PayPal? Debit cards also allow instant casino deposits but they charge a deposit fee. This is usually around 3-5% of the deposit sum, check the exact percentage on the casino banking page. Casinos don't always support MasterCard withdrawals. Wire transfer can take days to clear. However, you can use a service such as Trustly to make an instant casino deposit using your bank logins. The withdrawals also appear on your account right after the casino processes your withdrawal request. If you don't have a bank account or a debit card or think that setting up a PayPal account is an unnecessary hassle, there are alternatives. You can use Boku and Payforit to make a casino deposit with your phone bill or prepaid balance. The drawback is that you can't use these methods for withdrawals. Also prepaid cards such as Paysafecard work without a bank account. However, they don't support withdrawals either. You'll need to confirm another banking method to get your winnings.
