Crazy Time is won by accurately predicting the space the wheel will land at the end of the spin. You can bet up to 8 places with payouts depending on the space landed on. The safest bet is on space 1, as it has the highest number of incidences on the wheel with 21 and offers the lowest payout at 1:1.

The truth is that there is no trick to slot machines. They provide random results based on set mechanics and it all comes down to luck. With that being said, not all games are the same, so picking the right options is key, and you can still change the size of the bet throughout the session for better results.
