SLOTHUNTER SLOT MALFUNCTION & FRAUD

This is my recent experience on Slothunter.

After my

previous bad experience in January 2024, I've deleted all my documents from my Slothunter's account online casino.

Later in mid- May 2024 I was contacted by the

Slothunter VIP manager. He has promised me that the verification process, as well as the cash out procedures would be simplified. I was curious and have tried to test it if it's true.

And I have found out that it wasn't simplified at all. For verification :

they've requested one document and followed with more other documents .. and so on to be uploaded. A never ending verification for my withdrawal request. Finally, the Manager pushed their Finance Dept. to pay me out because my documents actually were completed.

However, last week I have encountered this very odd Technical Malfunction happened to the Slot machine I was playing on.

I had been playing continuously with

€0.50 per spin and later €0.75 per spin on this slot.

And I have always kept my eyes

alert and watching on my credit balance whenever I do the spin on any of Slothunter Slots.

On that day and time , I have my Credit Balance amount over €49,- on this Slot

Panda Fortune2, I didn't push the spin button at all, and it just took within a second when my credit balance €49,- disappeared right in front of my eyes! And left a credit only: 15 and Bet: 75 (yes 15 and 75 only, these figures without Euro Currency identification on it) . I checked into my game history: it stores the data that 3.75€ times 11 spins had been recorded. Which I didn't play it at all because I only played €0.50 and with €0.75.

Immediately I've reported this malfunction to the VIP manager

, I've provided him with evidences that he should carefully look into details and to compare the good slot machine with the malfunction one.

1) the good machine displays :

my previous winning. I've taken always the videos for my evidence to keep just in case.

It's showing the picture of the same Slothunter Slot Panda Fortune2, from Top to the Bottom. It displays : all the Jackpots amounts, my Credit Balance and Total Bet all identified with the EURO CURRENCY .

2)the picture with my current Malfunction

Slothunter Slot PANDA FORTUNE 2 ,from TOP to the BOTTOM.

It displays all the Jackpots

amounts, my Credit Balance and Total Bet, all WITHOUT EURO CURRENCY neither identified with Any Other Currencies!

This evening, after waiting for few days of his observation

together with their Slothunter Technical Team's, he has given me a nonsense and insane explanation! They have found no discrepancies and malfunction to that Panda Fortunes2 Slot machine.

(I believe that they do not even take a look into my evidences .And/or

making any efforts to look into their own Slot machines and to compare them with the malfunction one)!

The don't even see and check that all Slothunter Online Slots

available for the Neitherlands have the Currency Identification which is Euro Symbols.

Instead, he's just made it up by writing to me that the figures on the Slot :

15 and 75 must be multiplied.

He just ignore & denying the malfunction and refuse to return my money.

This case is reported as a Fraud to the
