This review describes all of its key characteristics that along with free demo mode available on our site give a good idea of experience you'll be getting.

Dancing Wild Symbol

A

Dancing Wild symbol that becomes a part of a winning cluster does not disappear from the reels before an Avalanche. Instead, if possible, it randomly moves to one of the positions that is horizontally, vertically, or diagonally adjacent to its initial position and that became empty after the winning cluster is removed. After the Dancing Wild symbol moves, the Avalanche™ feature is activated.

Dancing Wild symbols remain in

their positions and do not move down along with other symbols during the Avalanche™ feature. Dancing Wild symbols substitute for all symbols except for Multiplier symbols.

Dancing Wild symbol substitution pay the highest possible winning combination in a cluster according to the Paytable.

Dancing Wilds Hotspot

At the start of each spin in

the main game, a Dancing Wilds Hotspot is randomly placed on the reels, highlighting a 2x2 square area. At the start of Free Spins, a Dancing Wilds Hotspot is randomly placed on the reels, highlighting a 3x3 square area. The Dancing Wilds Hotspot positions

remain locked until they become a part of a winning cluster. In the main game, unlocking

all Dancing Wilds Hotspot positions during one game round awards 1 Dancing Wild symbol.

All Dancing Wilds Hotspot positions that are not unlocked within one game round, become

locked again. The awarded Dancing Wild symbols randomly appear on one of the empty Dancing Wilds Hotspot positions.

Multiplier Symbols

A Multiplier symbol appearing on the reels in the main game or Free Spins multiplies the total win from the spin by its value: x2, x3, x5, or x10. If two or more Multiplier symbols appear on the reels during the same spin in the main game or Free Spins, the total win from that spin is multiplied by the sum of their values. Multiplier symbols are not considered a part of the winning cluster.

Free Spins

3 or more Dancing Wild symbols appearing on the reels in the main game award 6 Free Spins. Free Spins start after the Avalanche™ feature is played. The Dancing Wild symbols from the game round that activated Free Spins keep their positions on the reels at the start of Free Spins until they become a part of a winning cluster. The initial size of the play area in Free Spins is 9 rows and 8 reels.

Increasing Reel Area

In Free Spins, unlocking all Dancing Wilds Hotspot positions expands the reels 1 row up. The maximum possible number of rows is 12. In Free Spins, after the reels are fully expanded to 12 rows, no more Dancing Wilds Hotspots appear until the end of Free Spins.
