Twentieth letter of the Latin alphabet

This article is about the letter of the Latin alphabet. For the same letterform in the Cyrillic and Greek alphabets, see Te (Cyrillic) and Tau . For other uses, see T (disambiguation)

T, or t, is the 20th letter in the Latin alphabet, used in the modern English alphabet, the alphabets of other western European languages and others worldwide. Its name in English is tee (pronounced), plural tees.[1] It is derived from the Semitic Taw of the Phoenician and Paleo-Hebrew script (Aramaic and Hebrew Taw , Syriac Taw , and Arabic T) via the Greek letter (tau). In English, it is most commonly used to represent the voiceless alveolar plosive, a sound it also denotes in the International Phonetic Alphabet. It is the most commonly used consonant and the second-most commonly used letter in English-language texts.[2]

History [edit]

Phoenician

Taw Etruscan

T Greek

Tau

Taw was the last letter of the Western Semitic and Hebrew alphabets. The sound value of Semitic Taw, Greek alphabet T (Tau), Old Italic and Latin T has remained fairly constant, representing [t] in each of these; and it has also kept its original basic shape in most of these alphabets.

Use in writing systems [edit]

English [edit]

In English, t usually denotes the voiceless alveolar plosive (International Phonetic Alphabet and X-SAMPA: /t/), as in tart, tee, or ties, often with aspiration at the beginnings of words or before stressed vowels.

The digraph ti often corresponds to the sound (a voiceless palato-alveolar sibilant) word-medially when followed by a vowel, as in nation, ratio, negotiation, and Croatia.

The letter t corresponds to the affricate /tʃ/ in some words as a result of yod-coalescence (for example, in words ending in "-ture", such as future).

A common digraph is th, which usually represents a dental fricative, but occasionally represents /t/ (as in Thomas and thyme.)

In a few words of modern French origin, the letter T is silent at the end of a word; these include croquet and debut.

Other languages [edit]

In the orthographies of other languages, t is often used for /t/, the voiceless dental plosive /t/, or similar sounds.

Other systems [edit]

In the International Phonetic Alphabet, t denotes the voiceless alveolar plosive.

Related characters [edit]
