Gates of Olympus Game Description

It's said the great gods of old would always shower

favour on the faithful and devoted, and with an all ways pays slot formula, it

definitely feels like we're the chosen one in the Gates of Olympus slot online.

Presided over by King of the Gods Zeus himself, the Gates of Olympus slot machine has a colossal 6x5 reel format, and excellent features like free spins, and multipliers.

How

to Play Gates of Olympus Slot Online

When playing the Gates of Olympus slot machine the

main thing you need to know is that this slot uses an all ways pay engine. This means that winning combinations are formed by landing 8 or more matching symbols, but these do not need to be adjacent or in a cluster.

To play Gates of Olympus follow these

steps:

Load the Gates of Olympus slot at Slingo Set your stake amount. Wagers start from as little as 20p a spin and max out at £125 per spin. When you're happy with your wager click spin to set the reels in motion. (Optional) Configure autoplay to have the Gates of Olympus slot machine play through up to 1,000 spins for you.

A variety of

symbols are used in the Gates of Olympus slot machine including 5 low-paying gemstones, and med-tier symbols such as a ring, goblet and sand timer. The highest-paying standard symbol is the golden crown. There's no wild used in this slot, but there is a scatter symbol which is represented by Zeus himself.

Gates of Olympus Characters and

Features

Tumble Feature

The tumble feature comes into play each time a winning combination is landed. The winning symbols will be removed from the reels and new symbols will tumble down onto the reels to fill the gaps. This can cause a new winning combination and can repeat the process multiple times until no new winning combinations are formed.

Multiplier Feature

Zeus is found to the right of the reel set and can come

to life at random to trigger the multiplier feature. When this happens Zeus will add a winged orb to the reels. Each orb has a multiplier value which can start at 2x and reach a maximum of 500x. Landing more than one orb at a time will add the multiplier values together, so, for example a 2x and a 6x multiplier would be added together for a total value of 8x. Multiplier orbs can be triggered during both the base game and the free spins bonus round.

Free Spins

Landing 4-6 Zeus scatter symbols will trigger the free spins bonus round and add a prize payout of 3-100x your stake amount. Players will be given 15 free spins and each time a multiplier is added its value will be added on to existing values. It's possible to retrigger the free spins bonus round an unlimited amount of times, and three more scatters will award another 5 spins.

Ante Bet

Players

can opt to activate the Ante Bet feature which costs an additional 25 coins per spin. In exchange for this extra cost more scatter symbols are added to the reels which increases the chances of activating the free spins bonus round.
