### As Marvel's Multiverse Expands, Deadpool & Wolverine Seem Poised for a Grand Entrance

Marvel Cinematic Universe (MCU) is currently in an intriguing phase, thanks to the introduction of the multiverse and the arrival of superheroes from various alternate realities. However, not all recent Marvel movies have lived up to expectations. While movies like Doctor Strange in the Multiverse of Madness and Spider-Man: No Way Home embraced the multiverse concept, others like Eternals, The Marvels, and Ant-Man and The Wasp: Quantumania fell short.

It seems that Marvel filmmakers struggle with the creative possibilities of the multiverse when dealing with a single reality, which may explain why movies that merely "tinkered" around the edges of the multiverse failed to impress.

#### Deadpool & Wolverine: The Perfect Time for the X-Men's MCU Arrival?

With a new Deadpool & Wolverine movie on the horizon, there's hope for the return of excitement and innovative storytelling. Based on the trailer, this new installment promises a deep dive into the multiverse and might even signal the official entry of the X-Men into the MCU, following Disney's acquisition of 21st Century Fox in 2024.

A storyline incorporating died-out realities and inter-universal superhero transfers provides a perfect opportunity to chute Michael Fassbender's Magneto and Kelsey Grammer's Beast from the Fox films into the MCU, with the Fantastic Four also imminent. Such appearances could make Deadpool and Wolverine's film even more awesome, with Ryan Reynolds and Hugh Jackman reprising their iconic roles.

#### Connecting the Dots: Time Variance Authority and Multiverse Manipulation

Clues about Marvel's upcoming multi-world integration already appeared in previous MCU episodes. The Time Variance Authority, introduced in the Loki TV show, plays a role in multiverse manipulation. Matthew Macfadyen's character, Paradox, hints at the entwining of different timelines and universes, encompassing Deadpool's universe, and potentially bringing Wolverine from his dying reality.

However, the merging of Fox's X-Men into the MCU remains a mystery. The involvement of

characters such as Lady Deathstrike, Pyro, and Azazel raises questions about the mechanisms behind these appearances. While theories abound and fans speculate, one thing is sure—crossovers and exciting revelations are on the horizon.

For the time being, Marvel fans can enjoy watching the ever-evolving tapestry of the multiverse, trying to predict and enjoy the interwoven connections between different movies and characters.

## Desertificação combatida: a China faz progressos no reflorestamento

Após décadas de esforços incansáveis, a China tem feito progressos concretos no avanço dos programas de reflorestamento para combater a desertificação e contribuir para a restauração ecológica global.

### Impulso nacional

- Anúncio de um fundo especial de 1,69 bilhões de dólares para o TSFP.
- Proposta de transformar o TSFP [bwin link](#) uma "Grande Muralha verde" e [bwin link](#) uma barreira de segurança ecológica totalmente funcional no norte da China.
- Em andamento: 22 projetos de reflorestamento e plantio de grama [bwin link](#) uma área total de aproximadamente 1,22 milhão de hectares.
- Proteção de cinco zonas de terras desertificadas, elevando a área total dessas zonas para 1,8 milhão de hectares.

### Conquistas ecológicas

- Expansão da área de florestamento do TSFP [bwin link](#) 32 milhões de hectares desde 1978.
- Aumento da taxa de cobertura florestal nas áreas sob o programa de 5,05% [bwin link](#) 1978 para 13,84% [bwin link](#) 2024.
- Plantio de 4 milhões de hectares de florestas e restauração de 4,38 milhões de hectares de pastagens degradadas [bwin link](#) 2024.
- Tratamento de 1,9 milhão de hectares de terras arenosas e pedregosas [bwin link](#) 2024.
- Reabilitação de 20,33 milhões de hectares de terras desertificadas desde 2012.
- Reflorestamento de 64 milhões de hectares e melhoria de 165 milhões de mu de pastagens de 2012 a 2024.
- Redução líquida de 50 mil quilômetros quadrados de terra desertificada e 43.300 quilômetros quadrados de terra arenosa de 2009 a 2024.
- Saída da pobreza de cerca de 15 milhões de pessoas nas áreas sob o programa por meio do desenvolvimento de indústrias florestais e de fruticultura.
