X/1 Betting Market In Football Betting

Bettors have a wide variety of football betting markets available. Usually, many of them only place their wagers on the classic 1X2 market. However, there are many other exciting options. Among them, we can mention the half-time/full-time bets. Football is a sport where every match is divided into two parts. This feature has given place to the half-time/full-time bets.

The X/1 betting market is one option we can find to bet on half-time and full-time results. It works like a combined bet since you must hit both halves' outcomes to win. To explain better this type of bet, it worth to remind what the symbols 1, X, and 2 mean regarding half-time/full-time soccer bets. So, the number 1 refers to the local team victory, the letter X refers to the draw, and the number 2 means the visitor team's success. In this sense, when the first half of a soccer match ends in a draw, and the local team wins the second half, we can say that the result X/1 has occurred. We can have up to 9 different types of half time/full time football betting options: 1/1, 1/X, 1/2, X/1, X/X, X/2, 2/1, 2/X, and 2/2. This bet involves more risk than football betting solely on the winner of the match. But, through a good analysis, we can estimate with enough precision the occurring probability of this betting market.

How To Use The X/1 Market When Betting On Football

To have a greater probability of success when betting, it is essential to detect games in which the teams involved meet certain conditions. In this sense, a bet on the X / 1 market can occur if the team that plays at home is, according to the odds, slightly superior to the visitor. In this case, it is very likely that there will be a draw at the end of the first half and that the home-team ends up winning at the end of the match.
