China has revealed an action plan to promote the opening-up of certification and accreditation and further deepen reform in the sector, said the country's top market regulator on Friday.

The action plan, implemented on August 28, sets goals, tasks, and measures to achieve high-level certification and accreditation opening-up from 2024 to 2030, said Pu Chun, vice-director of the State Administration for Market Regulation, at a press conference.

The plan encourages companies to improve new technologies and the credibility and quality of products to gain market trust, increase demand, and enhance competitiveness.

China has established a comprehensive framework for international cooperation and mutual recognition and has actively participated in international conformity assessment activities, said Pu.

By the end of June this year, China had joined 21 international certification and accreditation organizations and signed 15 multilateral mutual recognition agreements and 128 bilateral mutual recognition cooperation agreements, according to official data.
