You need to choose the size of chip you want to wager with from the bottom of the screen. The next step is to pick what number or sequence of numbers you want to put this amount on.

As you would expect, most of the commonly seen roulette betting options are available. These include straight-up bets on single numbers, corner bets, line bets and so on. It is also possible to bet on red or black coming up, as well as other even money bets like odd/even or high/low. These payout at 1:1. Go to the racetrack if you want to access interesting bets like voisins du zero and orphelins.

As is typically the case with roulette, the best wins come from straight-up bets. However, the added appeal here is that randomly applied multipliers

can boost this prize even more. The best of these multipliers is a massive 500x, leading to wins of 499x the amount wagered on it.
