How to tell when a slot machine will hit. You cannot tell when a modern slot machine will hit because the outcome of each spin is random. No matter how many times a machine has spun, and no matter what the outcomes of those spins were, the probability of the next result remains the same.

{k0}

Check out how often it pays out.\n\n However, not all machines are created equal; some pay more often than others and some rarely do so at all. A machine with many rewards is a highly volatile one because a player has to wait longer between wins but when they come they tend to be bigger.
