Betting on Super Spin Roulette Live

It's important to understand the two main bets types in Super Spin Roulette. Not least 5 because one type will get the benefit of the multipliers and the other type will not.

The two bet types are:

Outside 5 Bets – These

are bets placed on the outside of the betting grid. These tend to be the Even Money 5 bets, like Red/Black, Odd/Even, High/Low and Column Bets and Dozen bets, which pay 2:1.

Inside Bets – these are individual 5 numbers or combinations of numbers and have normal payouts of between 35:1 to 5:1. It is these bets that multipliers 5 will be paid on, and also the bets that have their normal payouts reduced (which pays for the multipliers).

The outside 5 bets play as they do on a regular European Roulette table, so there is no harm in playing those bets 5 on the Super Spin table, you'll get the same return.

The implications of playing the Inside bets and the impact the 5 multipliers have on the payouts does need some explanation.

Inside Bets

Straight Up Bet – This is a bet

where your chip covers 5 one number on the betting grid. There are thirty-seven numbers to choose from. You can place as many straight-up bets 5 as you like. The multiplier payout will be for the full amount. Payout = Straight-up Bet amount x Multiplier.

Split

Bet 5 – This is a bet where your chip covers two numbers – so half the amount is on one number 5 and half on the other. You cover two numbers with one bet. The multiplier payout for a Split bet is 5 half. Payout = Split-Bet amount x multiplier divided by two.

Street

Bet – Your chip covers three numbers across the betting 5 grid. There are 12 rows to place bets on. The multiplier payout for a Street Bet is a third. Payout 5 = Street Bet amount x Multiplier divided by three.

Corner/Basket bet – This is a bet where you place

your chip 5 on the intersection where 4 numbers meet. Hence the corner. The multiplier payout for a Corner bet is a quarter. 5 Payout = Corner Bet Amount x multiplier divided by four.

Line Bet – A line bet covers 12 numbers with one 5 chip. The multiplier payout for a line bet is a sixth. Payout = Line Bet amount x multiplier divided by 5 six.

Section Bets/French Bets can be used to cover sections of the wheel. The racetrack is used to place these bets 5 that will automatically place a combination of inside bet types to cover all the numbers. The multiplier payouts are a 5 per specific inside bet type. Popular bets include Voisins, Tiers, Orphelins sections of the wheel.

The

neighbours' bet is another way 5 to cover numbers, often resulting in straight-up and split-bets being placed.
