How to Play Speed Auto Roulette?

Speed Auto Roulette

live game follows traditional European roulette rules and contains a Roulette wheel with 37 different pockets numbered 0 through 36. If you've ever played at one of their roulette tables, you'll know what to anticipate here. The goal of roulette is to predict the number on which the ball will fall by making one or more wagers on that number.

When it comes to betting in Speed Auto Roulette, the chip denominations are situated at the bottom of your screen. You place your bet by picking a coin

denomination and placing it on the board or racetrack in front of you. When you drag your cursor over a qualifying bet, the numbers that the bet covers will be highlighted.

When the betting ends, the wheel will automatically spin, and the small white ball will determine the outcome of the round. You will win if the ball lands on a number that you have bet on.

Because each round lasts only 35 seconds, you'll be able to play as many games as you would on a standard roulette wheel. As there is no live dealer, everything moves rapidly. As soon as one spin is completed, the game begins accepting bets for the next round.
