A key difference between Blackjack and Spanish 21 is that all 10s are removed from the deck in Spanish 21. A Blackjack occurs when the first two cards that are dealt equal 21 – a combination of a face card (Jack, Queen, or King) and an Ace (which can have a value of 1 or 11, depending on your hand).

But the idea is that when someone shouts "monkey" they are not really asking for the dealer to bust, they are asking for the next card to be a "10" card which may well bust the dealer if he has a stiff of course.

Good game so far graphics are cool hasn't glitched yet give it a try

Good I just think the payouts could be a little better but over all a fun game

Love everything Awesome graphics love the graphics when you win

Great game and great wins and no dreadful ads

Great game all round better and faster wins would b

Not fun, no jackpots, waist of time. Also, force ad on ur face witch no one going to buy !.

I think that the graphics on your slot game are actually not very good at all, and I have been playing only for a short time, but it seems like I am losing more than I win which makes the game exasperating to play

After first rounds getting the coins they let you win don't expect any more you will barely get any wins.
