Based on Leonardo Da Vinci's art works and gemstones, Da Vinci Diamonds has the feature of Tumbling Reels which allows you to increase your winnings to a significant effect. The game was originally created for land-based casinos, but the level of success it enjoyed in a short span of time urged the designers at IGT to come up with an online version as well.

Synonymous for the

development of innovative themes and features for slot games, IGT has exceeded all expectations with a distinctive theme that provides innumerable gaming thrills. You can play the game in Flash mode or Instant Play. With five reels and twenty paylines, Da Vinci Diamonds allows players to make real money bets in three different currencies – the Euro, the Pound and the Dollar. The betting range for coin bets is between one cent and R\$5. Up to five coins can be wagered on a single payline, and the highest paying jackpot is worth 25,000 credits.

Gaming Experience

Da Vinci Diamonds has been created

in a manner such that it mimics the classic art forms that were popular around the time of Da Vinci. The selection of gemstones in the game only adds to its timeless beauty. The sound effects and graphics to go are excellent, and the gambling experience truly is unique.

The well-crafted icons and opulent settings are sure to mesmerize players.

Although there are many icons, the manner in which the reels have been designed makes the screen look elegant and without clutter. There may be other games that have excessive graphics that distract the concentration of players, but Da Vinci Diamonds is a perfect blend of quality and quantity.

Symbols in Da Vinci Diamonds Slot

Machines

Some of the icons you can find in Da Vinci Diamonds include a lady with an Ermine, Amber, Ruby, Jade, Mona Lisa, the Da Vinci Diamond and Leonardo Da Vinci. The design of the gemstones is clean and clear, and the level of detail is commendable. When you gather five Da Vinci Diamond symbols on the reels, you will be awarded with five thousand casino credits.

The scatter and wild symbols in Da Vinci Diamonds helps players in increasing their winnings. A Pink Gem is the wild icon in this game. It can substitute any other symbol to create a winning combination. If you manage to land five wild icons on your reels, you will be rewarded with 25,000 credits – the maximum jackpot.

Although there is only one scatter symbol in most slot games, Da Vinci Diamonds has three. The scatter icons are the Priceless Fine Art icons, each one depicting the paintings of women resembling the paintings of Da Vinci. If you gather four or more scatter symbols, payouts will be offered. However, the wild icon cannot replace the scatter icon.

Special Features and Bonus Rounds

The bonus round in Da Vinci

Diamonds offers players with a chance to win at free casino slots. The game can be activated when you hit four or more Pink Bonus icons. You will be awarded with six free spins to get the round started. The bonus game can be re-triggered when playing the free spins. Three hundred free spins are up for grabs in this round, but the wild icon cannot be replaced with the bonus icon to get a winning combination.

Tumbling Reels – a

feature incorporated into the game allows you to enhance your winnings. If you get a winning combo, all icons on that specific reel clear out so that icons above it tumble down and assume their position, thus awarding payouts in keeping with the paytable.

Players can now grab the opportunity to claim multiple payouts and continue to play until no more winning combinations can be formed. IGT's innovation and creativity have been keys to developing such a fantastic game that completely intrigues players. People who are interested in medieval art and the works of Leonardo Da Vinci, or even those with a good taste for a fascinating slots game is sure to enjoy the experience offered by Da Vinci Diamonds.
