Ontem, no tribunal de Manhattan para ver o testemunho do Pecker **brazino como funciona** primeira mão. Aqui estão os seus principais pontos:

Bem-vindo de volta.

Falta de seguridad en la frontera entre Israel y Gaza dificulta la entrega de ayuda

Una persona involucrada en los esfuerzos para distribuir la ayuda informó que las pandillas criminales armadas operan con casi total libertad en el área de la frontera Israel-Gaza donde deben pasar los camiones, atacándolos diariamente. La persona describió los ataques como coordinados y organizados, no como el saqueo espontáneo de civiles gazatos desesperados que entorpecieron los convoyes de ayuda en los primeros meses de la guerra.

Los atacantes armados disparan contra los camiones, los obligan a detenerse y, a veces, golpean a los conductores antes de despojarlos de su carga, informó la persona.

Y no hay nadie a quien llamar en busca de ayuda: La fuerza de policía controlada por Hamás que ayudó a garantizar el paso de la ayuda al principio de la guerra se desvaneció hace meses después de que las fuerzas militares israelíes mataran a varios oficiales. (La persona habló bajo condición de anonimato porque estaba vinculada por acuerdos de confidencialidad.)

La "falta de cualquier policía o estado de derecho en la zona" ha convertido las carreteras que rodean el paso en zonas altamente peligrosas, dijo el Sr. Haq.

El número de camiones internacionales con ayuda que alcanzan a los palestinos en el sur de Gaza ha disminuido drásticamente desde que comenzó la ofensiva de Rafah de Israel el 7 de mayo. Solo una pequeña cantidad de ayuda ha llegado a Gaza a través de Kerem Shalom, según los funcionarios de la ayuda, incluido lo que un funcionario de ayuda occidental describió como 30 camiones enviados desde Jordania el lunes. Incluso los 1.100 camiones cargados que están varados en el paso - equivalentes a lo que habría entrado en Gaza en poco más de dos días antes de la guerra - representan una fracción minúscula de lo que dicen que se necesita para evitar la hambruna en Gaza.

Otro paso fronterizo, en Rafah en la frontera entre Egipto y Gaza, permanece cerrado desde que comenzó la operación israelí.

En un intento por compensar la escasez, las autoridades israelíes comenzaron a permitir que más bienes comerciales ingresaran a Gaza desde Israel y Cisjordania ocupada. A diferencia de los convoyes de la ONU, estos camiones suelen viajar con protección armada, lo que les permite atravesar el terreno peligroso.

Israel había pausado las entregas comerciales durante aproximadamente dos semanas en un intento por permitir que los camiones de ayuda se movieran, según un funcionario estadounidense que trabaja en el esfuerzo de ayuda. Pero el domingo, con ninguna ayuda viajando por esa ruta debido a la inseguridad, Israel reanudó el envío de camiones comerciales, 20 de los cuales ingresaron a Gaza, dijo el funcionario.

Los funcionarios estadounidenses y de Occidente que trabajan en la ayuda hablaron bajo condición de anonimato porque no estaban autorizados a hablar públicamente.

Sportingbet is a British online gambling operator, owned by Entain plc. The company was listed on the London Stock Exchange and was a constituent of the FTSE SmallCap Index prior to its acquisition by GVC holdings.

History [edit]

The company was founded by Mark Blandford in 1997.[2] Sportingbet acquired Paradise Poker in October 2004.[3] On 7 September 2006 Sportingbet reported that its then chairman, Peter Dicks, was detained in New York City on a Louisiana warrant while traveling in the United States on business unrelated to online gambling.[4] Louisiana is one of the few states that has a specific law prohibiting gambling online. In March 2007, all Louisiana warrants involving the company were cancelled.[5]

In October 2006, Sportingbet announced Paradise Poker would stop taking deposits from US customers, although most would be allowed to continue to play for another month.[6] Additionally, Sportingbet sold all its US-facing sports betting and casino businesses, including Sportsbook and Sports, to a group of private investors for \$1, and an assumption of \$13.2 million in debts.[7] In February 2007, Sportingbet announced it was eliminating its Paradise Poker software and migrating players to its Sportingbet Poker platform. Prior to this, the two platforms had

approximately the same number of players, but the Sportingbet platform had higher liquidity because that platform was part of a larger network. The brand name of Paradise Poker was retained.[8]

Sport in BrazilPeteca Shuttlecock

Peteca (Portuguese pronunciation: [petk]) is a traditional sport in Brazil, played with a "hand shuttlecock" from indigenous 4 origins and reputed to be as old as the country itself.

The same name is given to the shuttlecock-object itself.

Objectives [4 edit]

The objective of the game is to hit the shuttlecock-like object (the peteca) with your hand over a high 4 net, similar to a volleyball net, causing the object to land in bounds on the opposite court. The peteca can only be 4 hit once while on each side of the net.

Doubles and singles, male and/or female matches are played, both for competitive 4 or leisure purposes.

History [edit]

The word peteca is derived from a Tupian word meaning hit.

Over time, the word found 4 its way into the Portuguese language.

Originally, peteca was played at times of celebration with dances and songs.

Gradually, this play became 4 more of a sporting activity.

The game has been passed down through several generations by the Brazilian ancestors and has developed 4 considerably along the way.

Early petecas were very primitive home-made affairs consisting of stones wrapped in leaves tied inside an ear 4 of corn.

A more sophisticated version was described in a Brazilian-English dictionary as "a leather pad with feathers stuck into it."

Pictures 4 of the first petecas are few and far between, but on 30 May 1979, Brazil issued a set of four 4 postage stamps depicting children's toys, to commemorate the International Year of the Child.

When Brazil was present at the 1920 Summer 4 Olympics in Antwerp, Belgium the Brazilian athletes took with them some shuttlecocks for amusement on the ship and during the 4 intervals

between games.

The game of peteca fascinated athletes from many other countries who wanted learn the rules of the game.

The problem was that there were no rules - it was just for pleasure.

Peteca left the streets, the grass and the sand to become a field sport in Belo Horizonte in the 1940s.

It was in Belo Horizonte, the capital city of Minas Gerais state, that the toy shape was transformed to its current format, proper for competitive games.

The typical peteca has 4 four white chicken feathers attached to a base and connected to a bottom made with several thin layers of rubber.

It was also in Belo Horizonte that the rules of the game were first written, as well as the first courts 4 were built and the practice gained competitive sense with internal championships that were held in various social clubs of the city.

In 1973 the Peteca Federation of Minas Gerais (FEMP) was founded, confirming the pioneering spirit of a sport born and developed among the Brazilian people.

From Belo Horizonte, the practice has spread to other Brazilian states, and from there to other countries, like France, that adopted the game as it is played in Brazil.

Peteca is now one of Brazil's fastest growing sports closely behind football and volleyball.

[citation needed] Another version of the game, called Indiaca, and closely based on peteca has developed in Germany, first appearing in 1936.

Rules of the game [edit]

A peteca match is played to the best 4 of the three games, singles or doubles.

The first player (or the first pair) who scores twelve points wins the set.

One game can last only a maximum of twenty minutes.

If neither of the two sides have reached the required score, then the win is given to the team with the most points.

The peteca must be struck with one hand only and must pass above the net to the opposition's side in order for them to return it.

The server remains the same one until the service changes side.

A point can only be won by the serving team.

The player with the service has thirty seconds to score the point.

If this is not achieved then the service is given to the opposing player/team.

Faults [4 edit]

There are a number of recognised faults which can occur.

Service fault: service passes to the opposing team if the peteca passes below the net, outside the limits of the court, if the peteca touches the net or if the peteca touches a player of the same team (double) before passing over to the opposing side.

The 'in play' faults: if a player puts his hands or feet on the opposing team's side (similar to what occurs in a volleyball game); if a player touches the peteca with two hands; if there are marked accompaniment and not striking; if any other part of his/her body touches it and if the peteca is not hit (head, feet).

The 30-second rule: the server or the team which is serving has 30 seconds to score the point.

If the point is not scored in this period, then the service goes to the opposition.

At the end of 20 seconds, the referee announces "10" as a warning of the time remaining.

With the sounding of the referee's whistle, the rally is finished.

This is a more strict rule, when there's a referee to open count.

Equipment and court [edit]

Shuttlecocks : There are two types of shuttlecocks used in two different kinds of games of peteca.

In a regular peteca tournament, the shuttlecock has a flat base and a standard weight of 42 grams.

The feathers are crimped and straight.

In a mini-peteca game, the shuttlecock has a rounded rubber base attached to 4 five or more

rubber discs.

The base is softer on the hand.

Although designs vary, the most common petecas (especially the competition type) consist of a base in the shape of a filled leather bag or a layered rubber pad, and a 4 flight, which is usually made out of feathers stuck to the base.

Lightweight gloves: beginners often find that the rubber base of the peteca is hard on 4 the hands, usually leaving red spots and a stinging sensation on them.

It is suggested that they wear a lightweight fingerless 4 glove, similar to those used in rugby.

Competition [edit]

Competitive court games have been played in Brazil since the early 4 1930s.

It was only in 1973 that the first rules were written.

It was founded in 1985 and is now a worldwide 4 played sport the aim of theme is to hit the shuttlecock like object

Currently,[when?] in Brazil, there's a Confederação Brasileira de 4 Peteca,[1] still incipient, being formed around the preexistent Federação Mineira de Peteca,[2] from the state of Minas Gerais.

A version of 4 peteca, indiaca, was developed by Karlhans Krohn [de] in Germany in 1936 and is very popular.

However, France was one of 4 the first European countries to embrace peteca proper.

The Federation Française de Peteca (FFP)[3] is the national organ for France and 4 was created in February 1997 by Jean-François Impinna, a French former international rugby player, and counts thousands of French peteca 4 players.

The United Kingdom has recently followed suit and taken up the game with the United Kingdom Peteca Association - UKPA[4] 4 leading its development.

May 2006 would see the first International Peteca Tournament being hosted by the FFP in Sannois, Paris.

Teams from 4 Brazil, France and the United Kingdom were to compete.[citation needed]
