Finding the best UK online poker sites is about more than just the most lucrative poker bonus sign-up offers. It very much depends on what type of player you are when playing the famous casino game.

Are you a beginner looking for recreational action where the sharks don't swim? A seasoned tournament entrant? Looking for the lowest rake? Or the highest volume of opponents to take on? Our review below covers the best sites for all those tastes and more.

The best online poker sites in the UK

Many of the UK's leading online poker sites are members of Playtech's iPoker Network, which means they share common poker client software and a common player pool. This means there's nothing between the sites in terms of player volume, or the skill level of their traffic.
