O grze Mafia Poker

The card game Mafia Poker is high stakes poker! Here you will play with mafiosi who know no mercy, and their stony faces will be hard to read. Poker face is their middle name! You will play with them a classic version of Texas Hold'em sports poker, which is something well known to every fan of card games.

Anyone who has never

played poker should try it at least once. It is a card game that has conquered millions of players around the world. Some of them are regular casino visitors, others play quite socially, with friends, and still others indulge in this form of entertainment ... in front of the computer, without leaving the house. No wonder, since they have the opportunity to play for free, for example, in Mafia Poker.

Mafia Poker gives us the

opportunity to play one of the most popular poker variants, namely Classic Texas Hold'em. In this version, players only have two cards in their hand, and five are placed in the middle of the table. Each of the participants can raise the stake, call or say "pass". When it comes to checking the cards, the combinations are a combination of the cards in the hand and those in the middle of the table. So if we have two aces, for example, and there are two more community cards, then we can shout, "Quad of Aces!".

Whether you've ever played poker or not, you should understand the rules of Classic Texas Hold'em in no time. However, it will probably take you a long time to reach true mastery. Although who knows, maybe you have a natural poker talent? Everything will be revealed during the first hands. Importantly, Mafia Poker allows you to stop the game at any time and to continue it when you can/want to return to the table. We will not have such an opportunity in any casino.
