The article discusses the investigation of the Blaze platform, which specializes in sports betting and gambling games, under suspicion of illegal activity, including money laundering. The platform offers online casino games and a popular game called "Jogo do aviãozinho" (Airplane Game). The article highlights the game's mechanism, where players can bet on the value of an airplane that appears to fly on the screen. The game's value can increase significantly, but in some cases, the game freezes, and the player cannot receive the amount won. The article also mentions the company's denial of a partnership with another website.

The article cites a specialist stating that gambling games, which rely exclusively or primarily on luck, have been banned in Brazil since 1941, according to the Misconduct Law. Advertising or promoting such activities, even disguised as advertisements, is also prohibited.

Gambling can be a sensitive topic, and it's crucial to be informed and vigilant when engaging in such activities. Remember, the goal is to inform and educate readers, not to promote or encourage unlawful activities.
