In 2024, I won the World Series of Poker (WSOP) Main Event, taking home a prize of US\$ 8 million. This win was a dream come true for me, and it catapulted me to the top of the poker world. I have since won a total of 1 bracelet and 0 rings, with earnings of R\$13,161,049.

When I first moved to Florianópolis, I struggled to find my place. I was a stranger in a new country, and I didn't speak the language fluently. But I refused to let that stop me. I knew that if I worked hard and stayed focused, I could achieve my goals.

To succeed in poker, you need more than just skill. You also need mental toughness and the ability to make smart decisions under pressure. I have worked hard to develop these qualities, and they have served me well in my career.

One of the biggest challenges I faced when I first started playing poker professionally was managing my bankroll. It's easy to get caught up in the excitement of the game and make reckless decisions, but I quickly learned the importance of staying disciplined. I set strict limits for myself and never risked more than I could afford to lose.

Another challenge I faced was dealing with the ups and downs of the game. Poker is a game of luck, and there are going to be times when you lose, even if you're playing perfectly. I had to learn to take these losses in stride and not let them get me down. Instead, I used them as opportunities to learn and improve my game.
