Skrill prepaid Mastercard

Skrill also offer a prepaid Mastercard

that can be used as an alternative to their e-wallet product. The main draw of using a physical Skrill card is that it gives you more flexibility when using your funds offline. You can enjoy instant access to your account balance and use abroad anywhere Mastercard is accept. Pretty much every retailer accepts Mastercard, plus you'll be able to withdraw money at ATMs, too – so you won't be short of options.

There are no

credit checks and you benefit from the added privacy and security of your Skrill balance not being linked to your bank account. Plus, there are no limits on how often you can top up the card, however there is a daily cap on transactions of £4,550. This still makes it a great options for high rollers and VIPs.

The card is free to request

and activate, but there is an annual charge of €10 which will be deducted from the funds in your e-wallet. Furthermore, there are no charges for using the card either, except for ATM withdrawals (1.75%).

Security

We already know that Skrill payments only require your email address and password as minimum requirements to authorise a transaction. While this means that your card or bank details are never shared with third parties, this isn't the only technical measure in place to keep you safe.

In the case that any breaches do occur, Skrill has you covered. Any information Skrill transmits is protected by the highest standard of encryption – Payment Card Industry Data Security Standards Level 1 (PCI-DSS Level 1). Put simply, this means that any attempt made to intercept your data will be unsuccessful, as it will be unreadable.

Furthermore, Skrill

also allows users to enable two-factor authentication (2FA). This allows you to use the Google Authenticator app to provide an extra layer of security. Not only will you require your password to log in, but you'll also need to present a one-time use authentication code given to you by the Google Authenticator app. If you don't have access to the Google Authenticator app, Skrill offers their own alternative. The PIN authentication feature can be used as a challenge when logging in, sending or withdrawing funds.

Technical measures aside, Skrill was the UK's first licensed e-money issuer and is authorised by the Financial Conduct Authority (FCA). All things considered, you can rest assured knowing you're in safe hands.

Fees

While it's free to

fund your Skrill wallet with a local bank transfer and pay at any retailer that accepts Skrill, there are a few small fees for depositing with other methods. Skrill promises to keep its fees for money transfers low and totally transparent, so let's take a closer look.

Credit cards incur a fee between 1.9 and 4.95 percent, while using a Neteller account will require a 3 percent fee. There are also fees for Skrill withdrawals, ranging from £5.50 for bank transfers to £7.50 for Visa.

As well as Skrill's own fees,

some online poker sites may add extra processing costs. This isn't particularly common, but we'd recommend checking out the terms and conditions just to be sure.

Welcome

bonuses

While several poker sites do accept Skrill as a payment method, you might find that making your first deposit with Skrill disqualifies you from claiming a new customer offer from your chosen poker site. This is the main concern for players using Skrill. We recommend reading the terms and conditions of any bonus offer before heading to the cashier to make a deposit, just to be on the safe side.
