Slither.io is a popular .io snake game. You must grow your snake by consuming multi-colored orbs in a giant multiplayer arena. Avoid other snakes to avoid becoming snake food, or take other players down by forcing them to crash into your side.

How to Play Slither

Do you like snakes? It's cool if you don't because these snakes are no threat to you. The players controlling the snakes, though... They'll try to get you. Enjoy this twist on the classic snake genre with Slither.io!

Like the classic game Snake that was available on cell phones and computers for decades, you grow by eating small pellets. But Slither.io introduces a multiplayer element that changes the playing field entirely.

In games with blinds, this amount is usually the amount of the big blind. Modern poker rules require that raises must be at least equal to the amount of the previous bet or raise. For example, if an opponent bets R\$5, a player must raise by at least another R\$5, and they may not raise by only R\$2.

Check, in poker terminology, simply means to refrain from betting when it's your turn to act. But you can't always check. If another player bet out before action came around to you, you must either call, fold, or raise. Pass is a synonym for check.

One thing I noticed is that nothing prevents you from preparing the pizzas in between days. So in practice you could bake a bunch of pizzas completely, then start a new day and just serve the pizzas to the clients.

I came up with a couple of ideas that might help with this:

The kitchen area should be restricted during "night time", and maybe the team should be instructed to do some other work (like cleaning, shopping, etc).

Pizzas should have a lifespan (in every state, from dough to finished pizza)

When a new day starts, all pizzas should be destroyed
