A parlay bet involves combining multiple individual selections into a single wager. The main difference between a parlay bet and a straight bet is that all of your selections must win for your parlay bet to cash. A single losing individual pick means the entire parlay bet results in a loss.

A Quinella is a good bet to take when there is a reasonable sized field ( i.e. 10 runners or more) and you are undecided about a couple of horses. The expected dividend in a Quinella is generally bigger than taking those same runners in a Win or Place bet. For R\$3 you can pick 3 horses to run 1st and 2nd in any order.
