Slot Review

Senior Content Editor Written by: James J. Hetrick Read Time: 4 min.

Das

xBoot is the title developed by recognized studio NoLimit City. Released on 14.09.2024 it became an instant success among players for its thrilling engine and high-quality artwork. This review explains all of its main characteristics that along with free test mode available on our site give a great idea of experience you'll be getting.

Das xBoot

is an interesting slot with a wide variety of features, with five reels and up to 75,712 ways to win. Playing Das xBoot slot, you can take advantage of wild symbols, multipliers and free spins, which are of two types. In addition, the advantage will be that free spins can be purchased without waiting for the required number of scatters to appear on the playing field.

xNUDGE WILD

A 4-row high Wild symbol that will always nudge to fully visible. Each nudge increases a Wild multiplier by 1. The xNudge Wild can only land on reel 3 and 4 except for in SILENT HUNTER SPINS where it can land on reel 4 only.

All multipliers add to each other and win is awarded after multiplying with that total multiplier.

xWAYS

The xWays symbol can land only on reel 2 and 5. It will reveal a random regular symbol. The size of the xWays symbol can range from 2-3 symbols.

If more than one xWays symbol lands on the reels, then all xWays symbols will reveal the same symbol.

xBomb Wild Multiplier

An xBomb Wild symbol substitutes for any symbol except Bonus symbols. xBomb Wild explodes all symbols that are not part of a winning combination except Bonus and other Wild symbols.

After the xBomb explosion

remaining symbols fall down on the reels and new symbols will collapse in and fill up the reel area again. xBomb will increase the win multiplier by one before the next collapse. xBomb Multiplier during feature trigger will be carried forward to Silent Hunter Spins/Wolf Pack Spins.

Bonus

The Bonus symbol can land on reels 2-5. Landing 3

Bonus symbols in main game will trigger 8 SILENT HUNTER SPINS. Landing 4 Bonus symbols will trigger 8 WOLF PACK SPINS.

Silent Hunter Spins

Reel 3 grows to 8 positions and a

new Periscope Wild symbol can land on this reel. If landing connecting symbols on reel 1 and 2 with a Periscope Wild on reel 3, a torpedo launch sequence is initiated. A target is found in the periscope and a torpedo is launched, if it hits the target the Periscope Wild grows all the way to the top position on the reel and nudges down to the bottom position giving a win multiplier for each nudge.

Everytime the torpedo hits its

target a sticky win multiplier is awarded and will increase the multiplier by +1 for the remainder of the SILENT HUNTER SPINS. When target is missed, the Periscope Wild is treated as a single Wild.

Everytime an xBomb symbol lands on the reels a sticky win

multiplier is awarded and will increase the multiplier by +1 for the remainder of the SILENT HUNTER SPINS.

All multipliers are added to each other before wins are

calculated. Additional Bonus symbols that land awards +2 spins in the Bonus mode.

Wolf

Pack Spins

A torpedo tube appears under the reels 2-5, and Torpedo Wilds can now land on these reels. Torpedo Wilds substitute any symbol except Bonus symbols.

On reel 2 and

5 the Torpedo Wilds drop a +1 xWays symbol to the torpedo area, which becomes activated once the whole torpedo is filled. The first time a torpedo part lands it awards a +2 xWays symbol.

On reel 3 and 4, the Torpedo Wilds drop a +1 xWays Wild symbol to the

torpedo area, which becomes activated once the whole torpedo is filled. The first time a torpedo part lands it awards a +2 xWays Wild symbol.

When all torpedo parts are

filled, the torpedo launch sequence starts and xWays symbols are revealed behind the torpedo in the size of the collected parts on each reel.

On reel 2 and 5 they are

transformed to a regular symbol and split in the number of ways that were collected from the torpedo parts. On reels 3 and 4 they are transformed to a Wild and split in the number of ways that were collected from the torpedo parts.

Maximum size of the

torpedo xWays symbols is 9.

Everytime the torpedo is launched a sticky win multiplier

is awarded and will increase the multiplier by +1 for the remainder of the WOLF PACK SPINS.

Everytime an xBomb symbol lands on the reels a sticky win multiplier is awarded

and will increase the multiplier by +1 for the remainder of the WOLF PACK SPINS. If an xBomb lands at the same time as a torpedo part lands it will increase the xWays addition to the torpedo with +1.

All multipliers are added to each other before wins

are calculated.

Additional Bonus symbols that land awards +2 spins in the Bonus mode.

Das Gold Des Roten Teufels

The max payout of the game is 55200 times the base

bet. When the total win exceeds this amount the game round will end and 55200 times the base bet is awarded.
