Reactoonz (Play'n GO): Review

Reactoonz is a 7x7 cluster pays slot with cascading symbols. Symbols drop down onto the grid to form winning combinations whilst wins are achieved by landing five or more symbols in a connected cluster - horizontally and/or 3 vertically. Winning symbols are removed and new symbols drop in to fill the grid. The game continues to cascade until 3 no new winning combinations can be created.

All wins

during a game round contribute to increasing the Quantum Leap charge meters 3 one by one. When a charge meter is fully charged, one of the following quantum feature is added to the 3 queue randomly:

Implosion : Transforms 3 to 6 symbols into wild symbols, while also destroying all adjacent symbols

: Transforms 3 to 3 6 symbols into wild symbols, while

also destroying all adjacent symbols Alteration : Chooses 1 random one-eyed symbol, and all 3 matching symbols turn into another symbol. In case if there are no one-eyed symbols on the grid, feature can choose 3 any available symbol

: Chooses 1 random one-eyed

symbol, and all matching symbols turn into another symbol. In case if there 3 are no one-eyed symbols on the grid, feature can choose any available symbol Demolition :

Destroys all one-eyed symbols and 3 all matching symbols

: Destroys all one-eyed symbols

and all matching symbols Incision: Cuts a wild symbol into the centre, and 3 creates two intersecting diagonal lines through the grid. Both lines will show the same random symbol.

When all five meters are 3 fully charged, the Gargantoon feature is added to the queue. The Gargantoon first adds a 3x3 wild symbol to the 3 grid in a random position. If no more cascades are possible, it first becomes two 2x2 wild symbols before finally 3 ending up as nine 1x1 wild symbols.

New symbols drop down from the top to fill the grid

before each move. 3 If no more cascades are possible, the Quantum features in the queue

are triggered. The game round continues normally, allowing 3 the charge meters to charge up for more effects, possibly creating additional wins. Charge meters reset only at the end 3 of the game round, if there are no more winning combinations present.

On any

initial non-winning spin, there is a chance 3 for the Gargantoon to drop 4 to 8 wild symbols onto the grid. 4 matching normal symbols adjacent to each 3 other in a square shape automatically form Giantoonz. Wins are doubled in any winning combinations if one or more Giantoonz 3 are part of it. One random one-eyed symbol type is marked as fluctuating symbol in each spin. If any of 3 the marked symbols are part of a winning combination, they leave 2 wild symbols behind. Wilds substitute for all normal 3 symbols.

Reactoonz (Play'n GO): Verdict

Initially, Reactoonz may come across as a bit

confusing and complicated so you just have to sort 3 of go with it and see what happens until you start to get the hang of it. Play'n GO have 3 specialized in these types of

cluster slots which have become extremely popular. The potential is certainly there and the main 3 game allows for a lot of action and tension while trying to charge the meters.

The game engine is outstanding 3 as is the mathematical model which is well balanced in spite of its volatile nature.

Beware though, Reactoonz can be extremely 3 tilting. It's

not uncommon to reach the 3rd or 4th bar just to see the progress vanish in a

heartbeat. 3 Moreover, expect the Gargantoon to position itself in the worst possible

place on the grid as well. Overall, however, Reactoonz 3 is not only one of Play'n GO's

finest cluster slots, it's also one of their best games ever released to 3 date.

Don't

Miss...

Some three years following the release of the original Reactoonz, Play'n GO

finally launched a sequel. Simply titled Reactoonz 3 2, it comes with slightly higher win

potential and a whole new set of modifiers. There's also a Gigantoonz slot 3 which takes

the story of the Toonz even further, you might want to have a look at that one as

3 well.
