tour poker

PokerCalc Pro is a lightning fast odds and equity calculator for Texas Hold'em. Features include: - Blazing fast automatic calculation, with little to no wait time to quickly see calculated odds and equity. - Full enumeration and Monte Carlo simulations are supported and automatically used depending on the scenario and combination count. - Evaluation of up to 10 player hands, plus any combination of board cards. - Analyze a scenario quickly at different stages: preflop, flop, turn, and river. - Hands can be specified as hole cards or as hand ranges. - Hand range library and selector tool allows for quick selection of most common ranges, as well as a growing library of predefined ranges. - Your own hand ranges can be saved and quickly recalled later. - Hand evaluations include hand type analysis and heat maps to quickly visualize the odds. - Modern UI that is optimized for both mobile devices and tablets. - Table scenarios that can be saved and reloaded for later analysis and study.
