Surebets

How to make money with surebets Making money with this strategy is not truble at all. You can certainly earn 5-15% from your bankroll (and even more) monthly. The key is to clearly understand the basics of the strategy. It works not only in soccer but also in other sports. Let's look at some real-life examples in order to grasp the concept.

Soccer surebet For example, let's take a World Cup 2024 qualification match between the national teams of Uruguay and Colombia. One bookie set the odds at 2.1 for Uruguay to win, while another bookie set them at 2.02 for the opposite outcome - Colombia to win or draw. If we wager R\$500 for each of the outcomes, we are guaranteed to remain in the black. At the same time, the amount of income will be quite fine as for a single bet (\$50 and R\$10, respectively). You can also use our surebet calculator to help in distribution of the amounts for your income to be of approximately the same size on each outcome.

Hockey surebet Let's take a look at the KHL regular season match between Barys Nur-Sultan and SKA. Surebets in hockey are most oftenly spotted at totals. In this clash, we are interested in Total Over / Total Under (4.5). One bookie set the odds at 1.85 for Total Over (4.5), while the other set 2.27 for Total Under (4.5). Bookmaker Total under 4.5 Total over 4.5 1 1.78 1.85 2 2.27 1.65 Both sportsbooks have included margin in their odds and are to make a profit regardless of the final result. For clarity, let's make a calculation: BK1: $L = 1 / 1.78 + 1 / 1.85 = 1,102$

BK2: $L = 1 / 2.27 + 1 / 1.65 = 1,046$ Anything over 1.0 is to be considered the bookie's earnings. In our case, the margin is 10.2 and 4.6 percent, respectively. When we bet on the aforementioned outcomes, we will outplay the bookmaker. Let's check this by substituting the numbers in the formula: $L = 1 / 1.85 + 1 / 2,27 = 0,9810$ The final
