## the dog slot

Are you a cat lover looking for a thrilling and entertaining slot game? Look no further than 100 Cats, the purrfect game for feline fans. Developed by EGT, this 5-reel, 4-row video slot offers a delicious blend of features and fun, with 100 betways to win big.

The game's central theme is, as the name suggests, cats. The reels are filled with various cat characters, each with its unique personality and charm. The game also includes a bonus game and a free spins round, which can reward players with hefty payouts. In addition, the game's wild symbol, the cat's paw, can substitute for all symbols, considerably increasing the chances of winning.

100 Cats also boasts an impressive return to player (RTP) rate of 96.97%, indicating that for every R\$100 gambled, players can expect an average return of R\$96.97. Furthermore, the game's volatility is relatively low, implying that wins occur frequently, albeit modestly. However, this makes it an appealing choice for players who favor a more consistent gaming experience.

Players can delight in the pleasure of winning with as few as 50 coins and as many as 10,000 coins with the game's Gamble feature. Accessible in the main game, it begins upon any win and progresses until players correctly forecast the following card's color. Only one card is presented face-up simultaneously, which can help players who opt to play this brief side game predict the next card's suit instead of just relying on chance. The payout offered after each win may also motivate players to keep repeating the gamble round until the prediction fails.
