Our motto is "For Poker Lovers, By Poker Lovers" - here at PPPoker we strive to provide a safe and fair gaming platform for all poker enthusiasts:

Dedicated Anti-Cheating Procedures

PPPoker implements several Anti-Cheating and reliability measures, including an Anti-Cheating team, Random Number Generator tests (RNG), Big Data analytics, and IP/GPS restrictions.

Our Anti-Cheating team regularly generates RNG tests to ensure randomness in the online dealing process meets the appropriate levels for an entirely fair playing environment. Club owners can implement both IP and GPS restrictions into games to ensure players do not have an unfair advantage over others.

PPPoker is also proud to report our platform has a cheating detection over 99.8%, and a platform uptime of 99%.

Top-Rated Application Shielding

The advanced built-in DDOS protection detects and identifies all kinds of threats automatically while blocking sophisticated attacks to ensure the server is secure and reliable at all times. We aim to provide a secure and steady gaming platform, which includes minimising all risks, including third-party incidents.

Disconnection Protection

We understand that sometimes external connection factors will table issues for our players, which can result in unnecessary downtime and potential loss. To combat the problem, our Disconnection Protection feature gives players extra 'time to act' to secure a stable connection before being sat out at the table.
