Everything is going to be

determined really fast because this type of ice cream is something different. It is alive and not good at all.

You need to get closer and closer to it because it has gotten so bad and evil that people cannot stop eating it. All of his kin had been eaten so that the evil villain ice cream had gathered a whole team with his brothers and made their way to make bad things to good and innocent people. Try to understand and see everything that you would like to determine over time and the things that you really like in there is something really cool like nothing different. Behold of the things that you would find in there and tell us everything. We want to see that you can handle all this ice cream and you can defeat it in all the conditions that will follow in time. Make sure that you understand all its concepts and you can get to know its secrets and if possible its sensitive points as well. We would like you a lot of curiosity and to determine by yourself a lot of stuff that totally matters in time. Never let us go and try to become the best in these situations that truly are important. Gather some Intel about the ice cream because it is going to be a tricky one and not everyone is going to be able to get it through and beat the hell out of it. It is going to be dangerous. The ice-cream is mad and tries to conquer the world in every single possible way but you must not let it go through all its behavior and plans, because that would mean that the world as we know it could come to an end. Try to get everything done before they do and after that eat the ice cream and feast out of it because you totally deserve it.

Never let us go like that because we would like to hear a lot of things from you and how have you felt during our super cool games. We are expecting a lot of likes and sharing our posts all the time.
